AccuRev
What our prospects & customers are saying….

What we've seen and heard…

- **Could not realize effective/optimal development process**
  - Inefficient **branching** and **merging** operations
  - Better support for **Parallel Development**
  - Frequent releases and **agile** processes
  - Difficulty managing **continuous integration** and **build**
  - Implementing **issue-based** development
  - Need Help **Scaling Agile**
  - Moving **functionality** between releases
  - Could not **reproduce builds**, including customer one-offs
  - Shipped with **regressions**

- **Inability to manage and enforce globally distributed and outsourced development teams and processes**
  - Poor **performance** for remote users
  - Too many **broken builds** because the process is not followed

AccuRev
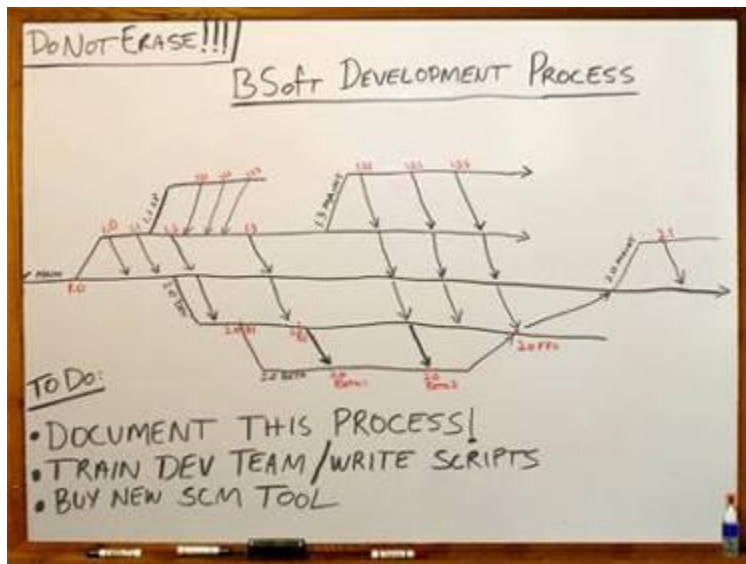

AccuRev Product Offerings
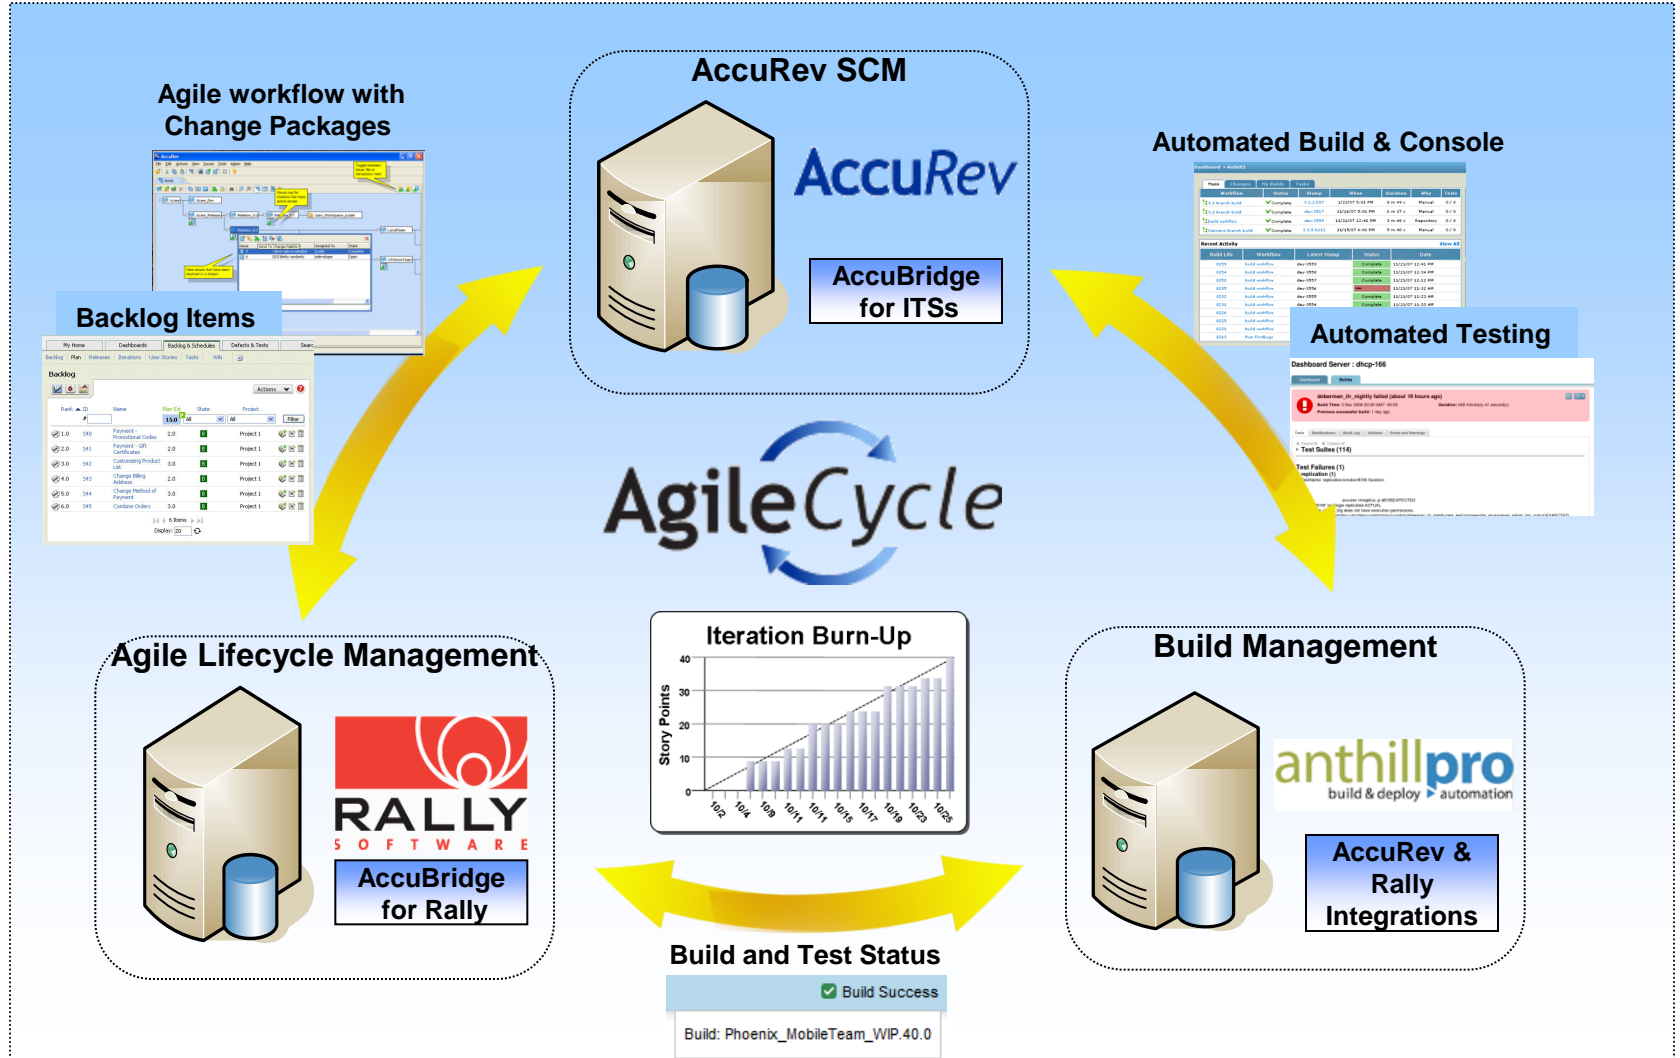

AccuRev Service Offerings

- **Process Assessment**

- **SCM Implementation / Best Practices**

- **Agile Coaching and Training**

- **Agile Transition Planning**

- **Agile and Product Deployments**

- **Product Training**

- **Product Support and Maintenance**

Optimal Process for Business Requirements

Using a Legacy Architecture

- Data and process are separated
- Arduous process to setup and change
- Cannot enforce engineering process

AccuRev StreamBrowser™

- Visualization and control of process
- Best practices built-in
- Control & enforcement of distributed developers and complex processes

AccuRev
